

GI for Sustainability Commission

Main tasks:

SUSGIS.net

25 members from
21 countries

- Producing a methodological structure for GIS and Cartographic basis of sustainable development of territories.
- Organization of international and regional scientific forums (conferences, workshops, summer schools) on GIS and Cartography for developing projects in Sustainable Development.
- Cooperation with sister organizations (the IGU Commission on Geographical Information Sciences, CODATA, Digital Earth, UNIGIS, ENVIROINFO etc).
- Continuing the work on realization of international conferences InterCarto, which since 1994 were annually carried out in Russia and in other countries (<http://susgis.net>).
- Documenting and publishing best practices, proceedings of conferences, textbook on geoinformatics contributions to sustainable development.
- Encouraging and supporting the involvement of student cartographers in the commission activities.

Main results in 2011-2015:

- 4 International Conferences «InterCarto/InterGIS» were held:
 - 2011 — Belokurikha, Altay Kray, Russia, and Denpasar, Bali, Indonesia;
 - 2012 — Smolensk, Russia, St.Die des Vosges, France;
 - 2013 — Kursk, Russia, Bogota, Colombia;
 - 2014 — Belgorod, Russia, Kharkov, Ukraine, Kigali, Rwanda, Nairobi, Colombia.
- 4 workshops for young scientist were held:
 - 2011 — Perm, Kazan, Saratov, Astrakhan, Volgograd, Russia (ship-based);
 - 2012 — Barnaul, Belokuriha, Russia;
 - 2014 — Kigali, Rwanda;
 - 2015 — Skopje, Prishtina, Tirana, Thessaloniki, South Balkan countries.
- Project «Digital Great Altai» (GIS support for ecosystem sustainability in Great Altay Ecoregion) was developed.
