Has a distribution list of 'members' or interested people been created?

maillist: about 160 members

commission membership list: about 90 members

Is there a Commission / Working Group web-site connected to the main ICA web-site?

Activities

Meetings:

1. Workshop "GeoVisualization of Dynamics, Movement and Change" at the AGILE 2008 conference
2. Workshop "GeoSpatial Visual Analytics" at the GIScience 2008 conference
3. Workshop "Cognitive Issues in Geographic Information Visualization"  
at AAG 2008
4. Workshop "Contribution of Geovisualization for the concept of the Digital City", Hamburg, 3-5/03/2009
5. Workshop "GeoVA(t) - Geospatial Visual Analytics: Focus on Time" at the AGILE 2010 conference, 10-11 May 2010, Guimarães, Portugal

6. Workshop "GeoViz - Linking Geovisualization with Spatial Analysis and Modeling" 10-11 March 2011, Hamburg (together with ICA Geospatial analysis)

7. Workshop "Persistent problems in geographic visualization",

2 July 2011, Paris, France (before ICC)

Accepted papers and slides of the presentations are available at the workshop's web sites

Have any Publications been produced from meetings or from any other initiatives?

ICA GeoVis has published 8 journal special issues, two more are in preparation now and are scheduled for 2011:

Does the Commission / Working Group have collaboration with any other groups (both within ICA  
and outside)?

Within ICA, the commission organized a workshop together with the "Spatial Analysis" commission.  
Key members of our commission participated in workshops of other ICA commissions.

Outside ICA, ICA GeoVis has close cooperation with InfoVis and Visual Analytics communities.

Several commission members cooperate in VisMaster (EU-funded Coordination Action), this resulted  
in a chapter of the VA research roadmap:

Gennady Andrienko, Natalia Andrienko, Urška Demšar, Doris Dransch, Jason Dykes, Sara Fabrikant,  
Mikael Jern, Menno-Jan Kraak, Heidrun Schumann, Christian Tominski "Space and Time"

In Daniel Keim, Jörn Kohlhammer, Geoffrey Ellis and Florian Mansmann (Eds.) Mastering The  
Information Age – Solving Problems with Visual Analytics Eurographics, 2010, pp.57-86, ISBN: 978-3-
