

ICA Anthem

Human beings, since birth,
Try to find a place
In their Moms' arms, in their cradle,
In their sleeping room,
In the house they live in,
In the place they grow up.

To know where they are,
How to move around,
And to find out where to go...
To know where they are,
People count on maps,
Maps show the way to follow...

Our mission is
To promote cartography,
Make the world aware
Of all that we do.

To know where we are,
How to move around,
And to find out where to go...
To know where we are,
Always count on maps,
Maps show the way to follow...
