

Introduce the Heritage of Cartography and Maps as a distinct and important part of World's **Cultural Heritage**

Access, treat and diffuse Cartographic Heritage (CH) by using all available digital tools

Transform and reference all available CH assets in digital form

Advance innovative cooperation with partners, who:

- **curate** and provide the CH assets
- **transform** into the digital
- **analyse**, interpret and promote CH
- **use** the CH data and meta-data

Publish the results of the Commission work
