

Geospatial Analysis and Modeling (GAM)

Chair and Vice-Chair:

Dr. X. Angela Yao (U.S.A)

Dr. Bin Jiang (Sweden)

What are the goals?

1. To foster [a research community](#) on spatial analysis, modeling, and data mining, with strong links to geovisualization and visual analytics;
2. To [encourage consorted efforts](#) on new research topics, for instance, those related to the analysis and modeling of emerging location-based social media data and other big data
3. To edit and [publish research findings](#) through various academic publication outlets, such as special issues on journals, particularly the new International Journal of Cartography

What have we been doing ? (2011 – 2015)

Organized a range of academic and educational events

- 2 Workshops
- 1 Tutorial at GIScience 2014
- 1 International conference (2015)

Published special issues and books

- 6 theme special issues with highly regarded international journals

International Conference on Location-Based Social Media Data

March 13-14, 2015

Athens, GA, USA

International Conference on Location-Based Social Media Data (ICLSM)

13 -14 March, 2015

International Conference on Location-Based Social Media Data

March 13-14, 2015
Athens, GA, USA

Pre-conference Workshops

A Hands-on Workshop on Data Acquisition and Visual Analytics for Social Media Data

Bin Jiang and X. Angela Yao

Spatiotemporal Modeling and Analytic Tools for Geo-targeted Social Media Data

Ming-Hsiang Tsou

International Conference on Location-Based Social Media Data

March 13-14, 2015
Athens, GA, USA

Oral Presentations

Share our Ideas

How to join us?

- ✓ Email either of the chairs (bin.jiang@hig.se; xyao@uga.edu)
- ✓ Visit the GAM website
<https://sites.google.com/site/commissionofica/> and Join our mailing list
