

*Alp Jungen and Matter Valley, Switzerland, August 2015*

## Motivation

- Growing social and economic importance of mountain areas
- Increasing demand for adequate cartographic base data regarding:
  - contents
  - graphic design
  - media
- Large spectrum of new themes requires new cartographic methods and approaches
- Need to go beyond classical topographic cartography

## Activities

- Founded at ICC 1999
- 1-2 sessions at each ICC
- Series of 9 workshops at mountain locations
- Series of proceedings
- 2015: Four term commemorative publication

## Terms of Reference

- Define topics and promote methods and knowledge of mountain cartography
- Web-portal as information exchange platform
- Discuss issues, such as map related representations, design and symbolization, technological issues, thematic content
- Continue workshop series
- Promote publication activities

## Contacts

- Proposed chair:  
Dušan Petrovič, Slovenia
- Proposed co-chair:  
Tom Patterson, USA

## 10th Mountain Cartography Workshop

The ICA Commission on Mountain Cartography and the Institute for Cartography of TU Dresden are pleased to announce the 10th Mountain Cartography Workshop.

This Jubilee Workshop will be held from 26 to 30 April 2016 at the Carl-von-Stahl-Haus located at the rim of the Berchtesgaden Alps National Park, right at the Austro-German border.

The overall theme of the Workshop will be **Unbounded Mapping of Mountains**. Topics of any aspect related to mountain cartography are welcome for submission, from cutting-edge research to overview reports, covering both theoretical and practical aspects.

Detailed information will be provided on the Workshop Website which will be advertised in the Second Announcement by the end of July 2015.
