## **Nomination of Prof. LIU Yaolin for ICA President (2019-2023)**

February 2, 2019

Dear ICA Executive Committee,

On behalf of the Chinese Society for Geodesy Photogrammetry and Cartography (CSGPC), I am writing to nominate Prof. LIU Yaolin to serve ICA as ICA President for 2019-2023.

Prof. Liu Yaolin has been working as ICA Vice President for 2015-2019. Yaolin Liu is a Professor at School of Resource and Environmental Science at Wuhan University, China, and the Director of Ministry of Education Key Laboratory of Digital Mapping and Geographic Information System.

Prof. Liu Yaolin is an active member of the international scientific community. In addition to his role as ICA's Vice President (2011-2019), Prof. Liu has served on the editorial board of a number of international and domestic journals, such as International Journal of Cartography and International Journal of Applied Earth Observation and Geoinformation. He is also a Vice President of the Chinese Society for Geodesy Photogrammetry and Cartography.

Prof. Liu has made significant research contributions to cartography and geographic information science, particularly thematic mapping, atlas design, spatial analysis and geo-computation, and their applications in land sciences.

CSGPC will fully support Prof. Liu Yaolin to continue his contribution to ICA as ICA president if he is elected at the General Assembly. CSGPC as a national member, will continue work closely with ICA to fulfill its obligations and to promote the science, art, and practice of cartography.

With best regards.

Song Chaozhi  
President  
Chinese Society for Geodesy Photogrammetry and Cartography

To: Prof. László Zentai  
Secretary-General and Treasurer

8 February 2019

Dear Prof. Zentai,  
Dear László

**Indication of Prof. LIU Yaolin for ICA President (2019-2023)**

I am writing to express my interest in running for the presidency of the International Cartographic Association (ICA). After serving the ICA in the past eight years as a Vice President, I hope to continue my service and therefore accept Chinese Society for Geodesy Photogrammetry and Cartography's nomination to run for ICA's presidency.

If elected, I wish to build upon the great contributions of previous ICA leadership and continue to develop the association as the world's leading international scientific community in mapping, cartography, and geo-information. Specifically, I will strive to contribute to the development and capacity-building of the International Cartographic Association, to enhance the participation of national members, to expand the role and influence of the International Cartographic Association in the international academic family, and to better serve national members.

My short bio is as attached. Should you need any further information, please let me know.

With warm regards.

Prof. Dr. Yaolin Liu

School of Resource and Environmental Science, Wuhan University  
Director of Ministry of Education Key Laboratory of Digital Mapping &  
Geographic Information System

### **Yaolin Liu 's short Bio**

Yaolin Liu is a Professor at School of Resource and Environmental Science of Wuhan University, China, and the Director of Ministry of Education Key Laboratory of Digital Mapping and Geographic Information System. He was previous Dean of School of Resource and Environmental Science at Wuhan University.

Yaolin Liu received his Ph.D. in Geoinformation from Wageningen University and ITC in the Netherlands in 2002. He received BSc and MSc degrees in Geography and Remote Sensing from China University of Geoscience in 1982 and 1988 respectively.

Yaolin Liu is currently Vice President of International Cartography Association (2011-2019), and serves on the editorial board of a number of international and domestic journals, such as the Journal of International Journal of Cartography and International Journal of Applied Earth Observation and Geoinformation. He is also a Vice President of the Chinese Society for Geodesy Photogrammetry and Cartography. He has organized several international and national conferences and workshops, and has served on the organizing committees of many international and national conferences and workshops.

Yaolin Liu has made significant research contributions to cartography and geographic information science, particularly thematic mapping, atlas design, spatial analysis and geo-computation, and their applications in land sciences. He has (co)authored more than 200 peer-reviewed articles and conference proceedings, edited 7 books and conference proceedings, as well as won several national scientific awards.
